Chennai, India

2013 - 2017

EXPERIENCE

ADYA AI

Indian startup that designs, builds, and deploys customized enterprise AI solutions.

AI Product Manager

- Shipped an enterprise voice AI agent 0-to-1, owning the product roadmap and leading a 12-member cross-functional team across engineering, UI/UX, GTM, and customer success
- Led customer discovery and product demos for 15+ enterprise prospects across banking, healthcare, retail and converted into 4 paying pilots
- Owned the voice agent builder platform including prompt editor, retrieval, speech model configuration (LLM, ASR, TTS) and tool calling
- Reduced Voice AI agent latency by 30% (700ms → 500ms) through streaming ASR, TTS and optimizing turn detection and LLM selection

Hyderabad, India

Jan – Jun 2025

THE NUDGE INSTITUTE

Center for Social Innovation, a startup incubator and ecosystem builder running accelerator programs and strategic consulting projects.

Manager – Strategy & Operations

- Led baseline-vs-control research with 1,000+ end users and 9 delivery partners to validate product-market fit, identify user pain points and recommend product scale-up strategy for two consumer Agri-tech products
- Managed portfolio and investment evaluation of 80+ startups as portfolio manager for a INR 500 crore government-backed venture fund, screening for commercial viability and scale-readiness

Bangalore, India

2024 - 2025

Associate Manager – Strategy & Operations

- Ran a market and competitive analysis in partnership with 45+ startups, 30 social enterprises, and 11 research institutes across India's organic and safe food industry, delivering strategic recommendations on sector consolidation and investment focus
- Secured INR 4 crore in project funding by building the business cases and pitching the program vision to senior corporate stakeholders

2022 - 2024

TECHNOSERVE

US-headquartered global development organization running market-based programs.

Senior Project Management Associate

- Led rollout of a supply chain traceability SaaS solution, coordinating with the vendor, validating features, and migrating 2,000+ user records while training 30+ operations staff and 10 interns
- Led the 0-to-1 rollout of a digital adoption program for 2,000 first-time users, lifting digital capability 40% through a 42-member field team

Mumbai, India

2021 - 2022

Project Management Associate

- Built Looker dashboards and streamlined data collection across CommCare, KOBO, and Google Workspace, cutting reporting time by 70% and improving data accuracy

2020 - 2021

BANK OF AMERICA CONTINUUM INDIA PVT. LTD

Senior Technical Associate

- Built and deployed product architecture changes that reduced trade settlement time from T+3 to T+2 days for Singapore's securities exchange (SGX)
- Silver Award for critical project delivery during high-stakes regulatory system migrations

Hyderabad, India

2017 - 2019
